

**Oshkosh B' Gosh, Inc:**

To whom it may concern,

Since Oshkosh B'Gosh has been doing business with Network Solutions our network has been running smoothly. The network's successful record is due primarily to the efforts of Network Solutions.

We have always found Network Solutions to be trustworthy and very reliable. When a cabling job is needed we can count on a successful installation the first time. No matter what time of day Oshkosh B'Gosh calls, Network Solutions is ready to help us. Situations have arisen and with little or no notice Network Solutions has come to our rescue every time. They have efficiently upgraded our entire building and kept us running.

Above all, Network Solutions, and Peggy Ott, have always been here for us when we needed guidance and expertise. They are reliable, trustworthy, professional and a great asset to Oshkosh B'Gosh.
